

## Section Three – Volunteering Opportunities

### *Volunteers make a difference*

Volunteering is an integral part of any healthy, connected community. Many community projects and organisations would not be able to operate without the dedication, skills and commitment of their volunteer team.

Volunteers, from all backgrounds, articulate that volunteering creates the opportunity to:

- make new friends
- learn new skills and share experiences and expertise
- explore different career opportunities
- contribute to their local community
- gain experience
- build self-confidence and enrich their lives.

The following groups and organisations recruit and support volunteers to conduct or assist with their community-based activities

Prospective volunteers can contact:
